3 Tips for Note-Taking

Tip #1
# Utilize colors & fonts

Taking notes doesn't have to be boring!

- Try using different colors to map out concepts
- Multiple fonts can help differentiate information
- Try bolding or underlining main ideas

Tip #2
Draw out concepts

Break out those doodling skills!
- Drawing pictures can help you understand ideas
- Arrows and shapes can help spotlight main points
- Combine drawing with different colored pens for optimal visual learning

Tip #3
Highlight important information

Draw your attention to the main ideas!

- Outlining and skimming is easier
- Use different colors for each concept
- Highlighting can help you achieve a deeper understanding of the lesson
